LISTED PROJECT

BLUE BADGE PARKING APP

MESSAGES (2)

INTEREST (4)

ASSOCIATED (0)

DESCRIPTION

I currently find it immensely time consuming and frustrating having to source the correct website for each area, then, having to search through each website to find the correct page (if they have one at all!!) Would also be good to make sure that when a map of nearest parking bays are found that the map names each road they are in.

This is a wonderful idea. I'd find this very useful myself and I'm sure there would be a lot of other people who would use it.

Posted by E.A. Draffan on Saturday 2nd of February 2013, 08:58 pm

You are not going to believe this but I have found a recent blog on the subject and there is an American app that may be the sort of thing that is needed here in UK Parker Smartphone Parking app - I am sure there is a better way of making the information on the more helpful.
